2 important!

Read these instructions carefully before using the device. Please keep this user guide for future reference.

General

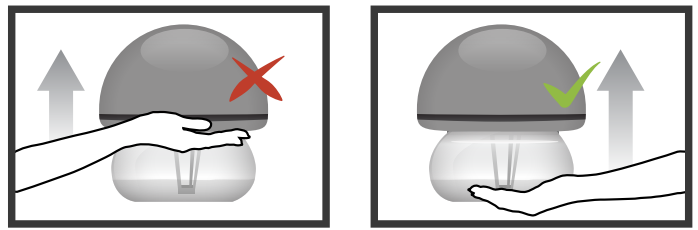
- The air humidifier may be used only in accordance with these instructions.
- Use and store the device at a temperature between 10°C and 40°C.
- While on power, keep the device out of reach of children and persons who may not be able to safely operate the air humidifier.
- Ensure good outflow of heat. Do not cover the air humidifier and never use it next to a heat source. Do not expose to direct sunlight.
- Make sure the cord does not get damaged and avoid tripping or falling over this cord.
- Repairs may only be performed by a qualified electrician. Do not try to repair the device yourself. Always return to the point of sale in the event of defects or damage.
- Only use accessories that are recommended by the supplier. Use of other accessories may cause damage to the air humidifier and pose a risk to the user.
- Supervise children to prevent them from playing with the appliance.

General

- Do not install the air humidifier during a thunderstorm.

Use

- Test the air humidifier before use. Become familiar with its functions and features.
- Do not place the air humidifier in the bed or playpen.
- Only use the air humidifier in an upright position.
- Never open the casing of the air humidifier in order to prevent electric shocks. Opening the casing will invalidate the warranty.
- Always remove the plug from the cord when the air humidifier is not being used.
- Do not open the top cap when powered on.
- Do not shake the air humidifier when running.
- Don't use the air humidifier more than 24 hours continiously.
- Always lift the device by holding the water tank, not the top cap.



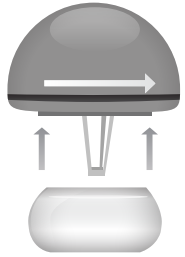
Environment

- The outer packaging of this air purifier can be returned as waste paper. However, we recommend keeping all packaging, so that the unit can be transported safely, in the appropriate packaging.

3 installation & use

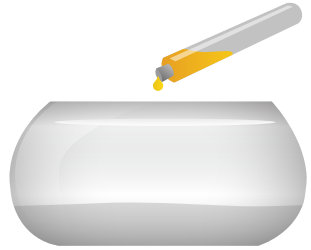
Note: make sure that the air humidifier is on a flat and stable surface to prevent falling.

1. Take the top part off.



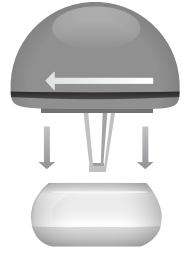
2. Pour water into the tank (below the MAX line).

3. Pour a few drop of aroma in the water tank (optional).

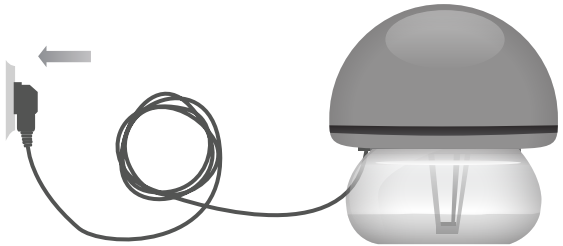


Note: aroma is commonly used in 3 drops or less. If too much aroma is used, bubbles may appear and damagethe machine.
Note: do not use other special solutions exept aroma therapies such as eucalyptus and balsamy.

4. Close up the top part.



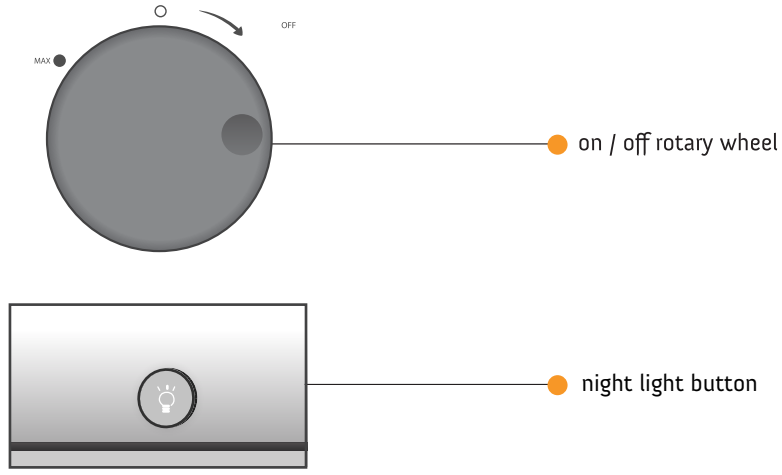
5. Connect the adapter and press the power button.



Note: if the water inside becomes dirty, please turn off the device and add fresh water.
Note: when opening the top cover, please turn off the device.

4 functions

Operation panel



ROTARY WHEEL	- rotate to immediately run the machine
NIGHTLIGHT BUTTON	- switches the night light on or off

5 maintenance

Cleaning
Disconnect the adapter before cleaning.
Only clean the baby air humidifier and adapter with a dry cloth, do not use chemical cleaners.

Make sure the cleaned air humidifier is dry before connecting to the power supply.

Spare parts
Spare parts and accessories can be requested at the point of purchase.

6 warranty & service

Register your warranty on www.duux.com/register

The Duux air humidifier has a warranty of 12 months after the date of purchase. During this period we guarantee the repair of defects caused by material and manufacturing defects. This must be assessed by the distributor in the country concerned.

In the event of a defect please first consult your user manual and the online FAQ (frequently updated on www.duux.com) at all times. If no solution is offered, you are requested to contact your supplier. If the supplier is unable to repair the defect, they will contact Duux customerservice.

Warranty period

- The warranty period will not be extended, even in the event of repairs being made.
- The warranty provides a right to have a product repaired but not to exchange or return a product.
- Duux's obligation under this warranty is limited to the repair or replacement of defective parts as deemed necessary and as covered under this warranty.
- Duux reserves the right to improve the design of any product without assuming any obligation to modify the previously manufactured products.
- The warranty may only be invoked if you provide Duux with the original purchase receipt along with the defective product. Your warranty registration must be on file when warranty service is required.

No warranty will be provided in the following circumstances:

- If you have made or arranged for modifications or repairs to be made without written permission first having been received from Duux or the retailer.
- Normal wear and tear or damage due to accident, carelessness, lack of maintenance, misapplication, improper use or use of accessories and parts which are not manufactured by Duux, as well as altered and/or disassembled components.
- Defects resulting from any use or maintenance other than that indicated in the user guide.

Important:

- This warranty period commences upon purchase of the product and is validated by registering online at www.duux.com.
- In the event of any dispute regarding product warranty, Duux reserves the right to take all final decisions on warranty.

7 FAQ

This section lists the questions most frequently asked about the appliance. We will frequently update this FAQ online with the latest issues, so please keep an eye on our website www.duux.com!

Can I also use this product outside the baby room?

Of course! Because of the modern design this product can be used in any room.

How can I get aroma to use in the air humidifier?

You can get small aroma bottles at your local wellness shop or on the internet. Some aroma-therapies, like eucalyptus, can be used to clean the airways when your child caught a cold.

What if my room is larger than specified?

Don't worry, it will not be a problem. But keep in mind that it will take longer to get the same air cleaning results.

Why is the nightlight blinking?

The water level has reached below the minimum or the tank is completely empty. Please add water.
